Alan Turing: an Introductory Biography

Alan Turing: an Introductory Biography Andrew Hodges Wadharn College, University of Oxford Summary A short description of the events and issues in the life of Alan Turing (1912-1954) The Turing Day conference at the Swiss Federal Institute of Technology, Lausanne, was held to mark the fiftieth anniversary of Alan Turing's birth,

Turing's Thesis - Stanford University

Introductory note to Turing's 1939 paper in the volume, Mathematical Logic[25] of his collected works In its biographical part I drew to a considerable extent on Andrew Hodges' superb ...

Alan Turing: His Work and Impact

Alan Turing: His Work and Impact Reviewed by Jeremy Avigad Denis Hejhal and Andrew Odlyzko do a fine job of explaining the intricacies himself into it, with ingenuity and hard work Part II contains excerpts from, and commentaries on, Turing's 1940 paper on the Enigma It also contains Turing's 1944 notes on the design of a system

TURING AND WITTGENSTEIN ON LOGIC AND MATHEMATICS

'The Turing course was one on the chess game of mathematical logic; extracting the neatest and tightest set of axioms from which to begin, making them flower according to the exact system of rules into the structures of mathematics, and discovering the technical limitations of that procedure' (Andrew Hodges, Alan Turing: The Enigma)

3515 ICT Theory of Computation Turing Machines

Alan Turing (cont) • Wrote numerical, learning and AI software for first computers, 1947-49 • Proposed Turing Test for artificial intelligence, 1950 • Studied mathematics of biological growth, elected FRS, 1951 • Arrested for homosexuality, 1952; died (suicide), 1954 • See Alan Turing: The Enigma, Andrew Hodge (Vintage, 1992)

Turing, Alan (1912-1954)

War II played a major role in achieving Allied victory, Turing was nevertheless sacrificed to the cold war hysteria over homosexuality Turing died on June 7, 1954 Bibliography Hodges, Andrew Alan Turing: The Enigma New York: Walker and Company, 1983 ____ Turing The Great Philosophers Series Ray Monk and Frederic Raphael, consulting editors

Alan Turing: The Founder of Computer Science Transcript

Alan Turing: The Founder of Computer Science Professor Jonathan P Bowen Alan Mathison Turing, OBE, FRS, has a rightful claim to the title of father of modern computing He laid the theoretical groundwork for a universal machine that models a computer in its most general form before World War II

Turing's plans for a computer.

TURING AND THE PRIMES ANDREW R BOOKER Alan Turing's exploits in code breaking, philosophy, artificial intelligence and the foundations of computer science are by now well known to many Less well known is that Turing was also interested in number theory, in particular the distribution of prime numbers and the Riemann Hypothesis

The Incomputable Alan Turing - arXiv

Alan Turing's life and work had a peculiarly intimate relationship with each other Thanks to Andrew Hodges' insightful biography [21], it is possible to trace many of the details of this, and to place it within the context of twentieth-century erosion of certainty

Alan Turing, Marshall Hall, and the Alignment of WW2 ...

Alan Turing, Marshall Hall, and the Alignment of WW2 Japanese Naval Intercepts to the German Enigma machine which Alan Turing had begun to attack in England I made significant results on both of these areas During 1944 I spent six months to the obituary of Andrew Gleason (1921-2008)
